

Investment Objective

The US Stars Equity fund seeks to generate long term capital growth by investing in a concentrated portfolio of American companies with enduring competitive advantages and a long runway of growth.

We select companies based on our own fundamental research, taking a long-term investment horizon. We do not follow benchmarks and always invest in quality.

Quality for a company means strong competitive positions, operating in good and growing industries, the financial strength to weather adversity and strong management teams with track records of value creation.

We seek to identify undervalued quality growth companies where the scale or persistence of growth is underappreciated by the market and there is the prospect of significant capital growth.

Performance since launch on 30th Sept 2024 is that of the Fund's A1 USD Share class. Prior to launch Performance is that of J. Stern & Co.'s US Stars Strategy, a simulated or hypothetical portfolio, that has been a standalone strategy since 1st June 2023, unhedged, which the Fund follows. Since 1st October 2012 performance is total return (with dividends reinvested) and net of 1% fees per annum, deducted 0.25% quarterly in arrears. Prior to 1st June 2023 (and from inception on [1 Oct 2012]) performance is that of the US primary listed holdings of the World Stars Global Equity Strategy (and so without any allocation to cash), with performance reduced by 0.25% quarterly in arrears to represent 1% fees per annum. Past performance is not a reliable indicator of future results; the value of any investment can fall as well as rise; and returns may increase or decrease as a result of currency fluctuations. The MSCI USA TR is designed to measure the performance of the large and mid-cap segments of the US market. With 593 constituents, the index covers approximately 85% of the free float-adjusted market capitalization in the US. Source: Factset, Wize, Bloomberg, J. Stern & Co. As at 31st October 2024.

Share Class Summary

Share Class	NAV	AMC	OCF*	Minimum	ISIN

*OCF (Ongoing Charges Figure) includes the annual management charge and aggregate operating expenses chargeable to the Fund. For more details on fees and charges, please see the Prospectus.

Portfolio Comment

The US Stars Equity fund was flat (0%) on the month for October, outperforming the broader US market that declined -0.8%.

The month was characterised by some market volatility heading into the US Presidential Election, as well as earnings reports from a lot of corporates for the third quarter.

Best performer in the portfolio was Booking Holdings (+11%), as it reported another quarter of improved travel demand, with strong growth in room nights as well as progress with their 'Connected Trip' offering. The company is a best-in-class operator and continues to lead the online travel sector with its strong execution.

Nvidia (+9%) continued its strong run with positive outlook towards the new Blackwell product suite that is experiencing high demand and ramping into 2025. We also saw many other technology companies report strength in their businesses catalysed by Artificial Intelligence and Nvidia is the key enabler of the Artificial Intelligence revolution.

On the negative side, Idexx Labs (-20%) declined after it reported a slowing of vet visits and Estee Lauder (-31%) continued to decline after it pulled its full year guidance and offered a soft next quarter guidance with continued uncertainty around the Chinese consumer demand.
